

# Scope Plane

What they say they need?

- A front-end only website
- An online source of their songs and videos, so fans and potential fans can listen and watch the band's old and new songs and videos, such as a gallery.
- Advertise their availability to perform at events
- Audio page
- Links to their social media pages what are in the process of creation

What they actually need

- A responsive website following the mobile-first approach
- A gallery page, to access their songs, videos, pictures
- Hire us page
- Links to their social media pages

What they don't know they need

- A sign-up form to keep fans up to date of events and offers
- Later on a booking and user system to offer special prices
