# Structure plane

Information architecture

Tree structure with a horizontal navigation bar taking the top third of the page..

Interaction Design (IXD)

- Home button and the band logo will take back the user to the home page
- Each menu button will have a particular color and that color will be the background of the main content on the particular page.
  The "The Monkees" logo will only be displayed on screen wider than 767px.
- The link to the Hire Us form and the Sign Up to our newsletter will take place on every page footer. The Hire Us link will take the user to the Hire Us page, the Sign Up link will open a modal.
- Filling out the Hire Us form the user, when clicks on the send button will see either message sent or a warning that every field required.
- The Sign Up form will open another modal with a message, that signed up successfully.
- All buttons (except the send and the sign up) will interact with the user when hovers over them. The social links button will show a message "Coming soon!" if the user hold the cursor on them.
